

MD. AFFAN HOSSAIN RAKIB

Junior Full-Stack Developer

Rampura, Dhaka | +8801795204677 | affanhossainrakib@gmail.com | in/affanhossainrakib | github.com/AffanHossainRakib

Career Objective

Motivated Junior Full-Stack Developer skilled in React, Next.js, Node.js, and modern UI frameworks. Passionate about building responsive web applications and delivering clean, scalable code.

Technical Skills

Languages: JavaScript, Python, SQL, TypeScript
Frontend: React, Next.js, Tailwind CSS, DaisyUI, Shadcn UI
Backend: Node.js, Express
Databases: MySQL, MongoDB, Supabase
Cloud & Hosting: Firebase, Vercel, Cloudflare
Tools: Git, GitHub, VS Code, Postman
Core Skills: REST APIs, JWT Authentication

Projects

The Book Haven | React, Express.js, MongoDB, Firebase Live | Frontend | Backend

A comprehensive book management platform combining digital library functionality with social features for discovering, reviewing, and discussing books.

- Secure authentication with Firebase (email/password, Google OAuth), full CRUD operations for book collections, and interactive social features including comments, reviews, and ratings system.
- Advanced filtering/sorting by ratings and date, with dark/light theme toggle and responsive design using Shadcn UI, Tailwind CSS, and Framer Motion animations.
- Built with React 19, Express.js, MongoDB Atlas, React Router, Axios, and Firebase Admin SDK for robust full-stack functionality.

BRACU Lab Buddy | React, TypeScript, Tailwind, HeroUI Live | Code

A tool for students at BRAC University to locate free lab rooms in real-time, supporting study, projects, and collaboration, with 300+ unique active users monthly (according to Google Analytics).

- Search by Day & Time or "Find Now" feature to instantly check current lab availability.
- Responsive UI using Tailwind CSS, HeroUI components, and Dark/Light Mode.
- Built with React 18, TypeScript, and Framer Motion for smooth interactions.
